PROFILE

As a UI/UX Designer and Frontend Developer, I am skilled in creating visually appealing designs and intuitive user interfaces, as well as coding the frontend implementation of these designs. With experience in creating content for social media, I understand the importance of user engagement and satisfaction.

WORK EXPERIENCE

UI/UX Designer

Sandyakala Cipta Karya / 1 Jan 2024 - 5 Jul 2024

EUNOIA AI: in a 6-month project at Sandyakala Cipta Karya, I was responsible for designing and implementing UI/UX design integrated with EUNOI AI Technology

- User Research & Analysis: Gathering data and insights from users to ensure the designs meet their needs and preferences.

- Prototype Design: creating wireframes and interactive prototypes using design tools Figma to visualize design concepts

- Integrations with EUNOI AI: Collaborating with the AI development team to ensure seamless integration between the user interfaces and the EUNOIA AI Technology engine.

UI/UX Designer & Content Creator

Artvatars / 5 Nov 2022 - 5 Nov 2023

Danasyariah:

- Led the overhaul of applications and websites to enhance user experience, applying modern UI/UX principles to their financial platform.

Mediffa:

- Designed UI/UX for "RumahWow" and the NFT-based "House of Panda" platforms. Created visually appealing designs for Mediffa website.

Bank Albarokah:

- Crafted a professional company profile for Bank Albarokah.

CERTIFICATE

Foundations Of User Experience, (UX) Design
Google Coursera / 2022

React Developer
Kominfo, Digitalent / 2022

UI/UX Specialization
Rakamin Academy / 2022

Content Creation:

- Produced engaging content for RumahWow, contributing to increased brand awareness.
- Developed content strategies for NFT House of Panda.
- Executed successful social media campaigns for both brands.

UI/UX Designer
PT Inovatif 78 / Jun 2022 - Oct 2022

Mega Konten & Mega Pasar:

- Led intuitive interface design for Mega Konten & Mega Pasar.
- Applied modern UI/UX design principles.
- Designed responsive and engaging interfaces for Mega Konten & Mega Pasar
- Collaborated closely with the development team.

UI/UX Designer & Frontend Developer
Universitas Muhammadiyah Bandung / January 2022 - Jun 2022

Performance Management System at Muhammadiyah University:

- Led the interface design for the Performance Management System, ensuring an optimal user experience.
- Integrated modern UI/UX principles to enhance efficiency and user engagement.
- Collaborated with the frontend development team for seamless integration.

Team Collaboration:

- Worked closely with the development and design teams to achieve alignment in design and functionality.

Frontend Development:

- Involved in frontend development, translating designs into responsive code.
- Ensured compliance with development standards and security measures.

User Testing:

- Conducted user testing to gather feedback and improve design and functionality.
